Reenactment showing rope and winch

***Always remember to do
your LPSA – because
we care about you!***

Incident Description:

On Sunday, July 25th at approximately 9:15 PM, a Chevron Long Wharf operator injured his hand between a winch and rope while mooring the Polar Adventure. The operator's injuries are a recordable DAFW.

Another operator working the same job was able to shut off the mooring winch once he realized the operator's hand was caught between the winch and messenger line.

A TapRooT investigation is in progress and other locations were apprised to ensure no subsequent incidents occur. A follow-up Alert may be sent out if substantive facts change.

Immediate Actions Taken:

1. The Chevron Fire Department responded and EMTs treated the employee on scene.
2. The employee was transported to Kaiser hospital for further evaluation.

What You Can Do:

1. Are you are aware of another job task in which a similar event could occur in your workplace?
 - Where are your hands at risk?
 - Where do you work with rotating equipment?
 - Where are potential pinch points?
2. Do you conduct an LPSA before starting work?

LOSS PREVENTION SELF-ASSESSMENT

BEFORE BEGINNING ANY ACTIVITY/TASK/JOB, AFTER A LOSS OR NEAR LOSS, ANY UNUSUAL CIRCUMSTANCES:

ASSESS the risk!

What could go wrong?

What is the worst thing that could happen if something does go wrong?

ANALYZE how to reduce the risk!

Do I have all the necessary Training and Knowledge to do this job properly?

Do I have all the proper Tools and Personal Protective Equipment?

ACT to ensure loss-free operations!

Take necessary Action to ensure the job is done properly!

Follow written procedures! Ask for assistance, if needed!

DO NOT PROCEED UNLESS ALL RISKS HAVE BEEN ADDRESSED!

For Everyone • Every Day • All the Time
